Welcome to The Millwork and Cabinet Company website! We supply and install custom cabinetry, millwork, interior and exterior doors, create custom fireplace mantels and much more. Browse our specialties page for everything we offer. You can get inspired by our ideas gallery, see what brands we carry and browse through online catalogs. Be sure to look at all of the photos from our previous work. There we proudly remodeled offices and find special offers and the latest information on our Facebook page.

Ready to get started on your home improvement projects? You can call us at 000-000-0000 or contact us by email. Then, you can schedule a consultation right on our web site for an in-home measurement by one of our experts. The Millwork and Cabinet Company is always trying to find ways to make updating your home more affordable and stress-free — that's why our office is open Monday through Friday every week, and we are happy to schedule an appointment that fits in your schedule. We are continually adding new features to our web site to create a better experience for you. Keep checking back as we continue improving our site to help you with your projects at home.

Our Business Philosophy

What is our home supposed to be? A place to unwind? A place to entertain? A place to entertain? A place to grow? All of these of course! But with all the stress from work and everyday living, the last thing we want to worry about is, "How can I upgrade my home without going broke?" Our goal is to provide every homeowner with a professional design and installation service making it right the first time.

Having so many options to choose from can be tough. Our goal is to provide a detailed plan that matches your budget and needs. Maximizing space and providing a solid working design is what we do. Your ideas and imagination is where it all starts.

The Millwork and Cabinet Company supplies cabinets, doors, mouldings, stairs & packages, finish hardware, professional installation and a design service that fits today's styles. What about the floors and countertops? Don't worry! We work with trusted companies that can handle that department — we can help you do that!

Building a New Home or Remodeling an old space takes time, planning, money and most importantly a solid design. Cabinetry, doors and mouldings are the finishing touches to the investment you make in your home and having an expert is the most valuable tool you could have. The Millwork and Cabinet Company has experienced employees who listen to your needs, and create an individual custom design. We have what we do, and that's why we do it.

We truly care about our customers and strive to provide you with great service.
